

AquaDrain® EK

1. ARDEX 8+9 waterproof layer 2. ARDEX SK 12 tape 3. AQUADRAIN® EK drainage layer 4. ARDEX A10 + ARDEX QUARKIES ME granulation 3.0 - 5.6 mm
5. stone/ceramic paving 6. AQUADRAIN FLEX line drain

🌱 AquaDrain® EK is drainage system specially made for putting outdoor paving on drainage mortar (ARDEX A10 + ARDEX QUARKIES ME granulation 3.0 – 5.6 mm).

🌱 Laminated mesh completely separates the layers due to creation of a quality long-term drainage.

🌱 This system has the fastest drainage of the water coming to it.

🌱 It can be used for large outdoor areas.

🌱 There are no ugly stains, efflorescence of the fugues nor appearance of calcification on the surface.

🌱 There is no cracking of the paving during the cycles of freezing and defrosting.

🌱 System absorbs sounds and reduce noise of the footsteps up to +30dB.
