

vegetation

river gravel - pebble

ARDEX QUARZSAND granulation
0.3-09mm, for better gripping of the
adhesive on the waterproofing layer

ND CLIC profile that fix
drainage layer ND 120

ND 120 vertical drainage layer

ND DGS-I earth substrate

ND 5+1 horizontal accumulation
drainage layer (5.8 l/m²)

ESHADESMOLAST primary water-
proofing reinforced with TEXTILE A 100
+ ESHADESMOLAST HRD
additional chemical protection

ESHADESMOLAST PRIMER
AQUA 2K

cement screed under the
slope of 3%

ESHA ELASTIC secondary water-
proofing layer and vapour barrier
reifoced with TEXTILE A100 in
corners

reinforced concrete
